CHRISTOPHER & ELAINE WILSON

Customer ID: 12871

Certificate: 43-A-3313

Site: 001

RR 2 BOX 226  
EVERTON, MO 65846

Inspection  
Type: ROUTINE INSPECTION  
Date: JAN-09-2003

2.40 ( a )

**ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).**

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors).

(Also refer to Policy 3, Veterinary Care)

(a) Each dealer or exhibitor shall have an attending veterinarian who shall provide adequate veterinary care to its animals in compliance with this section

Outdated medications found in the facility. It is against USDA policies for outdated medications to be used on the animals.

Copy of policy # 3 given to licensee.

This affects all animals in the facility.,

3.1 ( a )

**HOUSING FACILITIES, GENERAL.**

Sec. 3.1 Housing facilities, general.

Facilities and Operating Standards

(a) Structure; construction. Housing facilities for dogs and cats must be designed and constructed so that they are structurally sound. They must be kept in good repair, and they must protect the animals from injury, contain the animals securely, and restrict other animals from entering

The cages in the eastern most building do not properly contain the animals, protect them from injury or keep other animals from entering the pens. This must be corrected for the animals safety.

This affects only those animals in the eastern building.

3.4 ( b ) ( 4 )

**OUTDOOR HOUSING FACILITIES.**

Sec. 3.4 Outdoor housing facilities

(4) Contain clean, dry, bedding material if the ambient temperature is below 50 deg. F (10 deg. C). Additional clean, dry bedding is required when the temperature is 35 deg. F (1.7 deg. C) or lower.

There was no bedding in the outdoor shelters. The animals must be provided bedding when the temperatures fall below 50 degrees.

This affects all dogs in the facility

3.11 ( a )

**CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.**

. 3.11 Cleaning, sanitization, housekeeping, and pest control.

(a) Cleaning of primary enclosures. Excreta and food waste must be removed from primary enclosures daily, and from under primary enclosures as often as necessary to prevent an excessive accumulation of feces and food waste, to prevent soiling of the dogs or cats contained in the primary enclosures, and to reduce disease hazards, insects, pests and odors.

There is an accumulation of waste in some of the cages, under the cages, and around the runs. These areas must be kept clean to reduce diseases, insect pest and rodents.

This affects all animals in the facility.

To be corrected 25 Jan 2003

Inspection conducted by (b)(6), (b)(7)c and David Brigance, ACI  
Time of inspection 1215 hours.
